### Overview

The purpose of this meeting is to continue the momentum started at the Greater Columbus Meta-Leadership Summit for Preparedness by reconvening leaders from business, government and nonprofit sectors. In this meeting, participants will learn about all-hazards emergency operations planning from both traditional and non-traditional perspectives, and will engage in an interactive panel discussion focused on increasing participants' awareness of systems in place and how to get involved as well as "next steps." Participants will also have an opportunity to tour emergency response vehicles and visit informative display booths.

### Objectives

At the end of the sessions, participants will have:

- An expanded network of cross-sector contacts within the Greater Columbus area.
- An increased awareness of preparedness efforts, the systems already in place and an understanding of how to be better engaged in practice, planning and resource sharing.
- An understanding of the "next steps" of how to stay engaged in the Meta-Leadership initiative in Greater Columbus.
